

## HEALTH & SAFETY STATEMENT

The following is a statement of the general health and safety policy of the Livingcity Group of Companies (Livingcity). We are committed to comply with all relevant health and safety legislation, regulations and other health and safety requirements.

Livingcity is committed to preventing injury and ill health. It is our policy to ensure so far as is reasonably practicable, the health, safety and welfare of all of our employees or other persons who may be affected by our undertakings.

Livingcity will take action to continually improve our health and safety performance by implementing an occupational health and safety management system that meets the requirements of OHSAS 18001. We will continually measure, monitor and evaluate the hazards and risks from our activities, products and services.

The management of Livingcity looks upon the promotion of health and safety measures as mutual objectives for themselves and their employees at all levels. We will define the health and safety objectives, targets and improvement actions that are related to this policy and to our significant health and safety risks. We will regularly evaluate progress against these through our 'Management Review' process.

Livingcity is committed to provide relevant health and safety training and promote health and safety awareness to employees and, where appropriate, to suppliers and to communicating our health and safety performance.

The policy will be regularly reviewed and updated to take account of organisational priorities and changes, health and safety legislation and best practice.
